

SUPPLEMENTAL AMENDMENT AND RESPONSE UNDER 37 CFR § 1.111  
Serial Number: 10/674953  
Filing Date: September 29, 2003  
Title: GUN SIGHT AND METHOD FOR HITTING A MOVING TARGET

Page 9  
Dkt: 1792.001US1

### REMARKS

Claims 1, 14, and 23 are currently amended solely to correct grammar, and addressed below. The remarks relating to the rejections issued in the previous office action dated May 23, 2005, are in the Amendment and Response submitted August 22, 2005.

### TITLE

The response filed August 22, 2005, accidentally omitted the "AND" from the indicated title. The title of the application was not changed. The correct title is indicated herewith.

#### **Changes to Claim 1**

The word "to" has been added to line 2 of the claim.

#### **Changes to Claim 14**

The word "to" has been added to line 5 of the claim.

#### **Changes to Claim 23**

Previously, in the Amendment and Response dated August 22, 2005, the word "fourth" was deleted, and following that the word "fifth" was added, but was accidentally not underlined. The claim as previously amended on August 22, 2005, should have read as follows:

23. (Currently Amended) The apparatus of claim 22, wherein the plurality of different-sized indicator means includes:

a first plurality of sight indicator means including a first sight indicator means located to be closer to the gunbarrel, and a second sight indicator means, smaller than the first sight indicator means and located to be further from the gunbarrel, both along a first direction that extends substantially vertically from the gunbarrel;

a second plurality of sight indicator means including a fourth sight indicator means located to be closer to the gunbarrel, and a fifth sight indicator means, smaller than the fourth sight indicator means and located to be further from the gunbarrel, both along a second direction that extends substantially horizontally from the gunbarrel;

SUPPLEMENTAL AMENDMENT AND RESPONSE UNDER 37 CFR § 1.111  
Serial Number: 10/674953

Dkt: 1792.001US1

a third plurality of sight indicator means including a sixth sight indicator means located to be closer to the gunbarrel, and a seventh indicator means, smaller than the sixth sight indicator means and located to be further from the gunbarrel, both along a third direction that extends substantially horizontally from the gunbarrel in a direction substantially opposite the second direction;

a fourth plurality of sight indicator means including an eighth sight indicator means located to be closer to the gunbarrel, and a ninth indicator means, smaller than the eighth sight indicator means and located to be further from the gunbarrel, both along a fourth direction that extends from the gunbarrel in an angled direction between the second direction and the first direction; and

a fifth plurality of sight indicator means including an tenth sight indicator means located to be closer to the gunbarrel, and an eleventh indicator means, smaller than the tenth sight indicator means and located to be further from the gunbarrel, both along a ~~fourth~~ fifth direction that extends from the gunbarrel in an angled direction between the third direction and the first direction.
